

Technology & Developer Solutions

skillsoft

metar 

Skillsoft delivers training to more technology professionals than any other corporate learning company. Every year, we deliver 26 million hours of technology and development learning content to more than 5 million learners worldwide. Continual learning is an organization's most important tool in adapting to this unprecedented technology transformation where new roles are rapidly evolving, new skillsets are required and business and technology sides of the business are increasingly converging.

To ensure they can retain talent, organizations need to provide technology professionals with access to an abundance of multi-

modal resources to prepare for certification exams, trouble-shoot on demand, or acquire new technical skills. Finally, an area often overlooked for technology professionals is soft skills – these are crucial for developing effective leaders and communicators.

Skillsoft offers an unparalleled solution, developed in conjunction with our industry-leading experts who carefully curate multi-modal resources into hundreds of learning channels. These channels incorporate several learning modalities including video learning, hands-on practice labs, virtual mentoring and access to the largest library of leading certification prep books and audiobooks.

Skillsoft named core leader
for Digital Learning

"Sustained investment in continual learning is essential for organizations that seek to leverage digital transformation to advance business strategy. Skillsoft's continuous learning combines a sophisticated learning platform with an impressive volume of technical training content. By adding Practice Labs, TestPreps and Ask a Mentor to its robust library on Percipio, Skillsoft has created a valuable solution for skilling technology professionals."

Cushing Anderson, Program vice president, IT Education and Certification, IDC.

"The demand for easy-to-use, digital learning programs is one of the biggest issues on the minds of employees and employers today. Platforms that create a TV-like interface to content, enable reading/watching/listening together, and deliver industry leading skills are in high demand around the world."

Josh Bersin, Principal and Founder, Bersin by Deloitte, Deloitte Consulting LLP

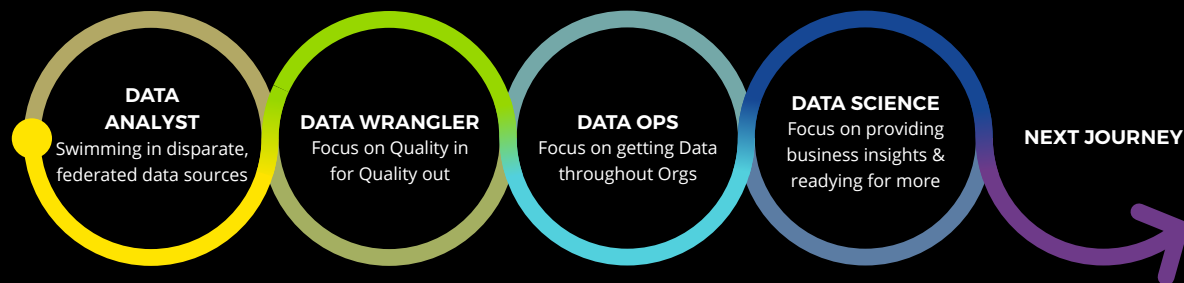

"Percipio is clearly resonating with customers, so we have placed Percipio in a leadership position in our recent Video Solutions for Corporate Learning report. We credit Skillsoft, a long-time leader in enterprise learning management and content, for capitalizing on their strengths and taking a leadership position in Learning Experience Platforms in such a short period of time."

Charles M. DeNault, Senior Analyst, Wainhouse Research

Keep Your Team Ahead of the Curve

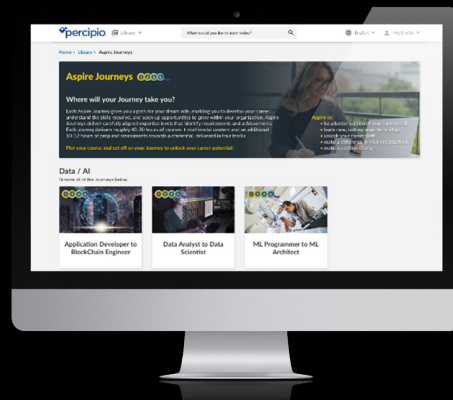

In today's battle to find and keep tech talent, organizations need to not only meet the challenges of retaining their top performers, but also support continuous learning for all levels in their organization – especially given the rapid technological change and disruption.

Skillsoft Aspire is a series of job, task, or function-oriented journeys for individuals, teams and organizations working in technology and related areas. Journeys include sequenced instruction that methodically progresses on prescribed tasks, functional responsibilities, application of knowledge so an entity can move towards an aspirational goal.

Learning Journeys Designed to Move People Forward

- 1 Sequenced Instruction
- 2 Multimodal Learning Tools
- 3 Hands on Practice
- 4 Capstone Projects
- 5 Credentials
- 6 Related Business & Leadership Skills

Covering key career paths

Data Science
Machine Learning
AI Developer
Blockchain
Pragmatic Programming
DevOps
Project Management
Security

Based on industry best practices, our own user data and close collaboration with clients around the world, Skillsoft identified top career paths that tech professionals take to stay current and be prepared for the future. Each journey delivers over 90 hours of courses which include books, business & leadership skills, practice labs, certification prep and assessments.

We believe that true learning is achieved through an experience that supports people in the flow of work – Watch. Read. Listen. Practice.

WATCH

- Expert-driven, video courses
- Hands-on insights from real-world technologists
- Micro-learning for agile delivery
- Assessment and exam prep

READ

- Thousands of books from the industry's leading technology publishers
- Access to code examples and other support resources
- Certification prep

LISTEN

- Industry's largest collection of audiobooks
- Coverage for DevOps, Agile and other technical topics
- Relevant strategy and leadership titles

PRACTICE

- Hands-on practice labs for both coding and infrastructure scenarios
- Live, virtual bootcamps
- Integrated mentoring and support

Features of Skillsoft Technology & Developer Solution

Instructional Design - Our courses are instructionally sound because they're developed by industry experts and reviewed by in-house eLearning professionals to ensure quality. We also invest heavily to ensure that our library is refreshed on a three-year cycle.

Channels – Experience over 500 pre-curated channels mapped to the competencies that matter most to leading global companies and assign learning paths to specific audiences.

Inclusive Learning - Users can access a wide range of learning modalities, including videos, digital books, audiobooks, practice labs and live learning to learn in the way that works best for them. These options make our training accessible to people with different learning styles and abilities.

Beginner to Expert levels – We curate content in terms of beginning/ intermediate/ advance/ expert according to the standards and pre-requisite knowledge set by the certification providers and vendors. When we define our levels, we look to industry standards such as SFIA and NICE, as they are developed by industry standards bodies.

Expert Access - We invest in expert instructors that are responsible for the development of our instructionally sound content assets. Leading experts and mentors that provide an affordable fast track to IT certification and offer test preparation to improve pass rates.

Talent Development - Curated playlists and curriculum maps guide learners through the stages of their career, consistently building on existing knowledge.

Certification - Support for more than 100 professional IT certification exams from leading software, hardware, cloud and professional organizations, with a tracked pass rate of over 90%.

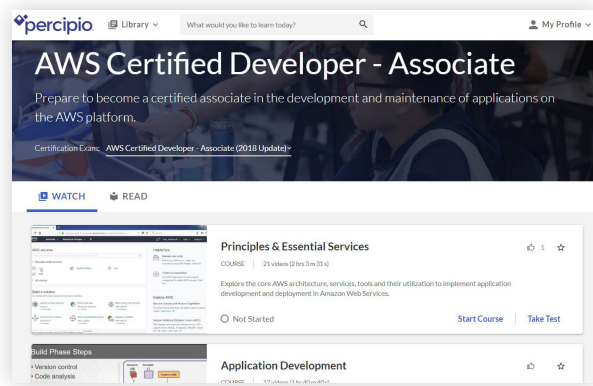

Percipio ELSA - The Percipio Embedded Learning Synchronized Assistant (ELSA) provides access to the award winning intelligent learning platform via a browser plug-in, so that the experience is available for all users throughout their workday, directly in their natural workflow.

Our award winning Technology and Developer content is delivered through our intelligent and immersive learning experience platform called Percipio.

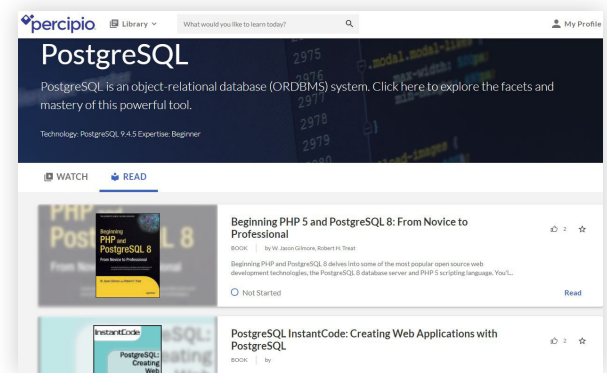

VIDEOS

Our comprehensive content offering is in a micro-learning format that can be delivered on desktop or mobile applications. We have partnered with content providers like ITPro. TV and LooneyCorn to provide ultra-contemporary technical video courses.

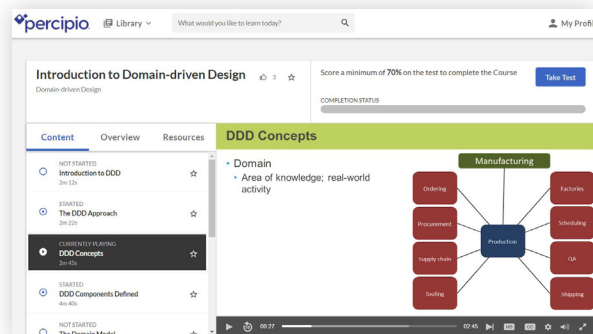

BOOKS

With the widest selection of books on the market today, our library includes publications on developer resources, emerging technologies, certification prep and real time reference troubleshooting. Skillssoft partners with the leading publishers of IT, tech and business skills content in the world including APress, McGraw Hill, IT Revolution, Bleeding Edge Press and Rocky Nook Publishers.

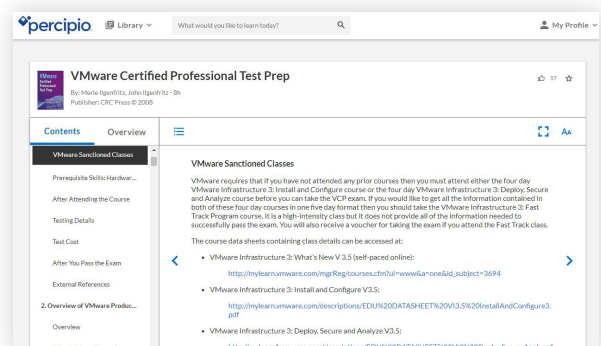

ASSESSMENTS

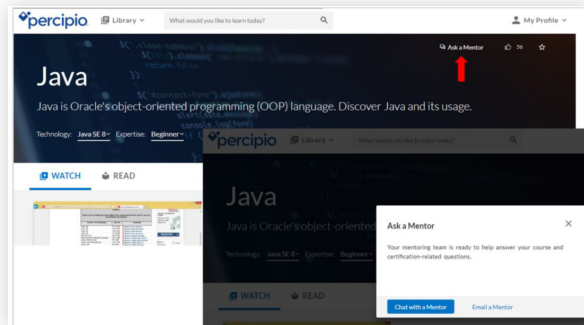

6,000 assessments mapped to Technology & Developer course library with integrated Percipio reporting and learner feedback on pass vs. fail.

TEST PREP

Our certification tests are designed to allow the learner to practice while preparing for an exam. Tests can be taken as many times as needed so the learner can build confidence in their ability. They can also take the test as a "timed" test simulating the pressure a learner would feel when taking the actual exam. Our surveys show 91% first pass rate for people who use our certification prep content.

LIVE MENTORING

Free online office hours with certified IT experts gives learners an opportunity for you to ask a seasoned professional any questions you may have about your upcoming certification test.

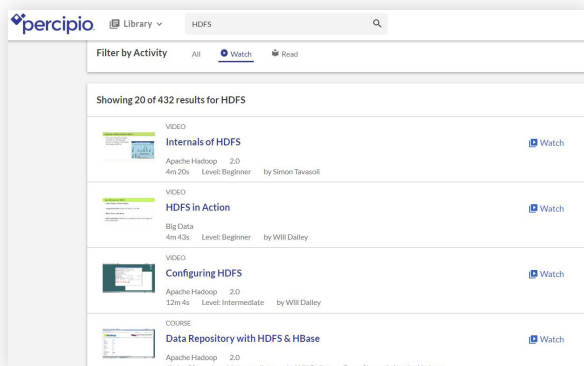

SKILLSOFT CODEX

Our virtual practice lab solution delivers coding exercises with embedded instructional video content that challenges software developers to learn, practice and perfect their coding skills hands-on in an integrated development environment (IDE) with immediate feedback and code validation. By using live machines and fully functioning IDEs, learners can use the sandboxes for other practice and validation needs. Practice labs are available in CISSP, CompTIA, IC3 – Global Standard 5, Oracle, Microsoft administration & certification, Wireshark, VMware, Python, Software Development Fundamentals, and more.

SKILLSOFT BOOTCAMP

Our dynamic virtual classroom experience, where learners access invaluable instruction and real-world insights from leading experts. Learners collaborate in scheduled virtual classroom sessions and have on demand access to replays of prior sessions to refresh and validate knowledge. Skillsoft Bootcamp includes curated resources, all while building confidence and accelerate knowledge retention. Topics include CompTIA, Project Management and MCSE DevOps.

Developer Solutions

Courses

We provide expert-led online courses, books, virtual labs, practice tests, and mentoring on today's relevant Developer areas, including:

- Cloud Architectures (AWS, GCP, Azure) and more
- Data/Data Science including Infrastructures, Tools and Platforms and more
- Scala, Go, Python, Java, JavaScript and more
- Microservices, Containers, Automated Testing, and CI/CD and more
- Security, PenTesting, Ethical Hacking and more
- DevOps, Agile, Lean and more

Technology Certification

We partner with IT certification vendors to provide training on important exams, including:

- AWS
- CompTIA
- Google
- Linux
- Microsoft
- Oracle
- RedHat
- SAS

Books

Books are an important part of each of the collections and we include the very best titles from over 120 publishers including:

- Apress
- Elsevier Science & Technology Books
- IBM Press
- John Wiley & Sons
- McGraw-Hill
- Sybex
- Oracle Press
- Wrox Press
- ITRevolution Press

Live

- Bootcamp
- Mentoring
- Practice Labs
- CodeX

Business and Leadership for Technology & Developer Learners

Skillsoft's market-leading leadership and business training provides technology professionals with access to a vast array of ways to develop their skills in order to achieve success as managers, communicators and leaders throughout their career path. Including Executive Education, Women in IT and First-Time managers.

Skillsoft Technology & Developer Collection Details

- Auditing
- Software Development Security
- Network Security
- Cryptography
- Computer Forensics

Skillsoft Tech & Dev Partners

Skillsoft works with many content providers to amplify and enhance learning resources offered through a single platform. We co-develop much of our Tech & Dev training content with recognized leaders in the software industry. With these partners, we maintain high course quality, provide learners with access to current topics in the industry, and provide the most up-to-date certification preparation materials.

Our partner content is available as a supplemental add-on to Skillsoft content for an additional charge.

BENEFIT FROM THE SAME COURSES THAT TRAINED MORE THAN 35,000 MICROSOFT SOFTWARE DEVELOPERS

WintellectNOW is an on-demand developer training solution that delivers real-world, ready-to-use knowledge, tools and techniques written by the top tier of expert instructors. It provides best value and ROI via the most flexible enterprise licensing policy in the market, allowing customers to move users in and out of seats at will. And it's powered by Wintellect, Microsoft's #1 developer training vendor and outside trainer of choice for over 12 years.

More than 500 courses across emerging topics

- Windows and Linux
- .NET and .NET Core
- Modern Web programming
- JavaScript and Angular
- React and Redux
- Blockchain
- Microsoft Azure
- Data science
- Spark, Hadoop, Python, Scala, and more
- Machine Learning (ML) and Artificial Intelligence (AI)

Accelerate the pace of innovation with MIT xPRO's world-class expertise, delivered via Skillsoft's engaging professional learning solution.

MIT is among the most elite educational institutions in the world, at the very top for technical education. xPRO courses are developed and delivered by world-class instructors and industry experts. Repurposed for Skillsoft micro-learning, on-demand courses, this is the same content offered by MIT xPro, often for professional certification.

- Data Science and Big Data Analytics: Making Data-Driven Decisions
- Cybersecurity: Technology, Application, and Policy
- Internet of Things: Roadmap to a Connected World
- Principles of Biomanufacturing: Using Biotechnologies to Manufacture Medicines
- Entrepreneurial Negotiations
- Introduction to Quantum Computing and its Applications
- Quantum Algorithms for Cybersecurity, Chemistry, and Optimization
